## INTRODUCTION

On Tuesday, September 27, 1966, a Negro youth fleeing from a stolen auto was shot and fatally wounded by a San Francisco Police Officer. This incident occurred in the Hunters Point District of San Francisco which is a predominately Negro area. Word of the incident spread rapidly throughout the Negro area. This was the beginning of 128 hours of civil disturbance which was to be a toilsome experience for the citizens of San Francisco, and one which taxed Law Enforcement Agencies to the utmost.

The minimal number of injuries and incidents of damage, and the effectiveness with which this operation was handled is, in large measure, attributable to the quality and personal character of the personnel who were directly involved. These persons exhibited an extreme degree of professionalism throughout the campaign where personal initiative was required in facing and overcoming physical, psychological and tactical problems which arose with incalculable swiftness.

The cooperation rendered by all -- Supporting Agencies of the California Highway Patrol, California National Guard, California Disaster Office, San Francisco Disaster Office, the Utilities Services, Economic Opportunity Center, Youth for Service, other community leaders, various Municipal Departments and the Members of this Department was to be noted throughout. Under extreme hardship conditions where long and arduous hours were spent on the street, many of which were devoid of relief, food and water, etc., the appearance was one of determined effort as if by one large agency.

Members of the general Negro community, particularly those who reside in the areas of the disturbances, must be commended for their compliance with the necessary requests and orders of the agencies attempting to control the disturbance and re-establish order.

Another important aspect which must be considered in examining the effectiveness with which this operation was handled, is the advanced planning that was undertaken as early as 1963 to anticipate what reasonably could be expected. During 1963 this Department held several meetings with the California National Guard to establish and delineate the precise steps required to obtain support services of that agency. Following these, additional meetings were held where strategic and operational plans were developed and areas predesignated where such outbreaks could be expected. Manpower requirements were related to perimeter and containment areas.

As in all prior planning, not all of these plans were effective. Tried practices and theories had to be related to current and new situations and tactics. However, the general success of the operation in quelling rapidly and effectively what could have been a catastrophic occurrence is evident.

During this 128-hour period:

1 person was fatally shot (initial incident)

161 persons were reported injured, including:

58 Policemen

27 Firemen

2 Highway Patrolmen

5 Other City Employees

69 Civilians (10 from gunshot wounds)

457 persons arrested connected therewith, including:

325 Adults

89 Juveniles

43 Juveniles cited (other than Traffic)

253 Incidents of Property Damage, including:

170 Civilian

83 Governmental

67 Incidents of inventory loss

Property damage was estimated at:

Civilian Property Damage .....	\$ 33,328.00
Governmental Property Damage .....	11,630.00
Inventory Loss - Civilian .....	90,824.00
Governmental.....	<u>          --          </u>
TOTAL	\$135,782.00

Under the direction of Thomas J. Cahill, Chief of Police, all available data, records and information relative to the civil disturbance were gathered in an effort to report the events that occurred during that period. Insofar as possible, documented and official reports and records were used. In all instances, detailed efforts were made to verify and substantiate information, statements and data that appear herein. Those who desire additional information or breakdowns not covered by this report are directed to the original reports and records which are filed in their respective, normal repositories.

## CHRONOLOGY

On the morning of September 27, 1966 the sun rose at 7:01 A.M. daylight saving time, with a temperature of 73 degrees, beginning what was to be a clear, unusually warm day - 11 degrees above the 30 year average.

On that day, Officer Alvin Johnson, Star No. 22, worked his normal tour of duty, being assigned as operator of Potrero Police District Radio Car Number One.

By 2:00 P.M., the promise of an unusually hot day was being fulfilled. The temperature now had risen to 85 degrees with a humidity reading of 28 percent - the wind was northwesterly at 7 to 9 miles per hour.

Shortly after 2:30 P.M., Officer Johnson was patrolling south along Griffith Street, near the intersection of Oakdale when his attention was drawn to a car facing north in the center of the roadway. As Officer Johnson observed the vehicle he saw the doors open and two suspects alight; one from the driver's side and the other appeared to come out of the door on the passenger side. This vehicle was now stalled in the center of the roadway approximately 2 to 3 car lengths away from the approaching police car.

Officer Johnson's suspicions were aroused when the suspects abandoned the car and ran away as he approached. The manner in which the suspects abandoned the car and fled when they saw him indicated to him that the auto was stolen. Officer Johnson observed the two suspects run around the car and in the direction of an open area on the east of the paved street. By this time, Officer Johnson had stopped directly in front of the stalled auto and alighted.

A third suspect, subsequently identified as Darnell Mobley, NMJ, 14 years, of 1527 LaSalle Street, had been able to get out of the abandoned vehicle and hide behind a parked station wagon in the

area while Officer Johnson's attention was focused on the two other suspects who were attempting to run into the open area between the project dwellings. This subject was later proved to be the driver of the vehicle at the time Officer Johnson first saw it on Griffith Street.

Officer Johnson, now on foot, ran after the two suspects and called to them to stop, shouting, "Stop, I want to talk to you." These suspects hesitated momentarily and then continued running. Officer Johnson drew his service revolver and again shouted for them to stop, shouting, "Stop! Stand still or I will shoot."

Officer Johnson was unable to overtake the fleeing suspects or persuade them to stop. He was, however, able to observe their direction of flight and concluded that they were going toward Navy Road and Griffith Street. Officer Johnson returned to his radio car, backed into Oakdale Avenue, turned around and drove north along Griffith to Navy Road and then made a right turn and proceeded slowly, east on Navy Road.

Investigation revealed that the two suspects pursued by Officer Johnson were:

1. Mathew Johnson, NMJ, 16 years, of 1145 Hollister Street.  
(the home of his Great Aunt, Victoria Williams)
2. Clifton Bacon, NMJ, 15 years, of 43 Caine Street.

As Officer Johnson proceeded slowly along Navy Road and approached the west end of the first building (Building 15) on that street, he observed one of the suspects run out from behind that building. Officer Johnson yelled from the open window of the police car to this suspect and ordered him to stop. This suspect then ran back behind Building 15. Officer Johnson drove the police car to the east end of the building where he caught sight of the suspect running down the hill in a southerly direction away from him.

Officer Johnson again drew his service revolver and shouted toward the suspect, "Stop! Hold it! Hold it or I'm going to shoot." This suspect refused to stop and continued running downhill, in a "broken field" fashion. Officer Johnson then fired four shots.

As Officer Johnson fired the fourth shot, the suspect was running up a slight rise in the terrain. Officer Johnson observed the suspect pitch, "as though he were jumping into a depression," below the level of the rise. This placed the suspect outside the range of Officer Johnson's observation. Officer Johnson then cautiously proceeded down the hillside to the place where the suspect had disappeared. This was two hundred and fifty-one (251) feet in distance and fifty-six (56) feet below the grade level from the position where Officer Johnson was standing when he fired. Upon arriving at this point, Officer Johnson observed the suspect lying face down on the ground in the depression and realized at that time that the suspect was hurt. Officer Johnson shouted for someone to call assistance.

By this time, witnesses who had heard the shooting from their office building at 185/187 Navy Road (The Economic Opportunity Center) were approaching the scene. Mr. Gus Davis, an employee of the Economic Opportunity Center, was approaching Officer Johnson and heard him call for someone to summon help. Mr. Davis called over his shoulder to one of his employees and relayed the request. Mr. Davis then continued to the depression and observed the suspect. Mr. Davis remained alongside Officer Johnson who related to him what had occurred.

Meanwhile, Mrs. Louise Williams, a registered nurse working at the Economic Opportunity Center, heard the shots and looked out the window of her office at 187 Navy Road in time to see the suspect go over the top of the rise and fall into the depression. From her observation of the nature of the fall the suspect had taken, she assumed that he would have injured himself and went to the scene to assist. When Mrs. Williams arrived at the scene she immediately administered

first aid to the suspect. She continued her attempt to help the suspect until she could no longer feel any pulse. Mrs. Williams then announced that she thought the suspect was dead.

About this time Inspector Joseph Curtin arrived on the scene with Sergeant Perrasso of the Housing Authority Police. Inspector Curtin is the Police Department member assigned in charge of the Housing Authority Special Police. Inspector Curtin was notified by telephone of the shooting and had responded from his office. Following his arrival, Inspector Curtin observed the body on the ground and Mrs. Williams and Mr. Davis near Officer Johnson. Inspector Curtin spoke with Officer Johnson who described to him what had happened. At the direction of Inspector Curtin, Sergeant Perrasso of the Housing Police checked via radio for an ambulance and also notified the Potrero Station. This radio transmission was logged in the Police Department records of the Bureau of Communications at 3:10 P.M. An ambulance from the Alemany Emergency Hospital arrived at the scene at 3:14 P.M. Following an examination of the suspect, he was pronounced dead by Edward Chaput, Steward from the Emergency Hospital. At 3:28 P.M. the Coroner's Office was requested to respond.

Captain Harry Nelson, Commanding Officer of the Potrero Police District, was on duty and in his office when notified of the shooting incident in the Hunters Point Housing Projects. Captain Nelson called the Housing Authority Police and information was verified that an officer of the San Francisco Police Department was involved. Captain Nelson, Sergeant Korelec and Officer Milon immediately responded to the scene, arriving at 3:28 P.M. at which time Captain Nelson assumed command.

In response to the "Shooting call", Inspectors Manley, Armstrong and Rajewski of the San Francisco Police Homicide Detail, left the Hall of Justice for the Oakdale and Griffith location, arriving at approximately 3:30 P.M., followed shortly thereafter by Lieutenant Hugh Elbert, Platoon Commander of the Potrero Police District. Inspectors Manley,

Armstrong and Rajewski took command of the investigative aspects of the incident, summoned the Police Department Mobile Crime Lab, interviewed the immediately available witnesses and examined the scene.

While the investigation at the scene was in process, Deputy Coroner Lytle arrived and assumed custody of the suspect's body. The body was removed from the scene at 3:50 P.M. The vehicle involved in the incident was impounded and towed from the scene at 3:55 P.M.

The auto involved was a 1958 Buick, license number BFE 492. This auto had been parked at Girard and Bacon Streets near Portola Jr. High School by the owner, Mrs. Ida Scurlock. The time of theft was fixed at 11:36 A.M. by Clifton Bacon, one of the suspects pursued by Officer Johnson. Bacon recalled hearing the fourth period lunch bell ring at Portola Jr. High. Although the auto was stolen at 11:36 A.M., it was not reported to the police as stolen until 8:25 P.M. The late reporting was because Mrs. Scurlock said she believed her husband may have come for the car.

Between the time of the shooting and approximately 4:00 P.M. the number of persons observing the proceedings increased from 10 persons to approximately 150 persons. These persons were tense but orderly and so remained until they separated into smaller groups and then dispersed by their own volition by 4:15 P.M.

The serious nature of this incident and the possible consequences that could arise from it were immediately realized by Chief Cahill. At his direction this information was relayed to the California Disaster Office at 4:22 P.M.

The preliminary stage of the investigation by Inspectors Manley and Armstrong was completed by 4:50 P.M. These inspectors were the last unit of the San Francisco Police Department to leave the scene. The situation was orderly at that time.

The Departmental investigation concerning Officer Johnson and the facts surrounding the shooting shifted to the Potrero District

Police Station where Officer Johnson was interviewed by Captain Nelson and Members of the Bureau of Inspectors, and then by Members of the Press. Following the press interview, Officer Johnson was ordered to the Hall of Justice.

A situation was developing in the 3rd and Palou area at the Economic Opportunity Center. Mr. Eugene Orro called Captain Nelson to advise him that a large group of young adults had congregated and were talking about storming the Potrero Station. Mr. Orro requested Captain Nelson to come to the scene and address the crowd.

As Captain Nelson and his staff left Potrero Station, they were met by Mr. Granville Jackson and Mr. Walter Scott of the Human Rights Commission who accompanied them to the Economic Opportunity Center for the meeting. Upon arriving at the Economic Opportunity Center Captain Nelson, Lieutenant Elbert, Mr. Jackson and Mr. Scott were immediately escorted to an office on the second floor where a meeting of 40 - 60 young adults was in progress. The tenor of this meeting was boisterous and tense. Captain Nelson was questioned simultaneously by numerous people present and his attempts to speak were thwarted by shouted questions and noise. The general attitude of the meeting gathered impetus and changed from tenseness to hostility. Mr. Scott and Mr. Jackson also attempted to address the group but were shouted down in turn. The only intelligible questions seemed to demand immediate information as to what was being done to Officer Johnson: Was he being arrested for murder?, Was he in jail, etc.? Captain Nelson finally was able to communicate to the assembled group that an investigation was being conducted but that at that time insufficient information had been gathered to answer all these questions. Captain Nelson advised the group that he would do everything possible to have answers for them by 12 Midnight. Captain Nelson left the meeting at approximately 6:45 P.M. and returned to Potrero Station where he was met by Supervising Captain Martin Lee.

When the meeting disintegrated the youths who had congregated

in the area moved into the streets cursing and shouting. The angry mob, its temper matching the 84 degree temperature, seized reporters' cameras and attempted to damage police cars, throwing any available objects. Part of the mob gathered at 3rd and Palou and a portion of its members entered the Rexol Drug store and smashed several displays, finally leaving the store a shambles. The mob moved along 3rd Street breaking windows in the stores which were not Negro owned.

In the meantime, Mr. Orville Luster, Director of the Youth for Service, advised that an Operations Headquarters for this group was being established at 1600 Oakdale Avenue. A request for the use of Police Department bullhorns was made by Mr. Luster. This request was complied with and within moments several horns were brought to the scene and used by members of that group.

At the Potrero Station, Supervising Captain Lee and Captain Nelson were in conference regarding the situation that was developing. At approximately 7:00 P.M. they toured the affected area to assess the situation and to determine what police requirements would be necessary to control the problem. Numerous reports were being received of large groups of youths gathering at various points throughout the area. Radio requests for assistance were being heard over the communication systems. Following an alarm alert from the Sears Liquor Store and an evaluation of the conditions developing, Supervising Captain Lee, via radio, ordered all District Station #1 radio cars manned with 4 men each to respond to the Potrero District. This order was issued at 7:23 P.M. At 7:29 P.M. Supervising Captain Lee established area blockades in the 3rd Street area and at 7:30 P.M. all available solo motorcycles were ordered to assist in the Potrero District. Supervising Captain Lee and Captain Nelson returned to the Potrero Station.

The situation was developing toward riot proportions. At 7:32 P.M. the first window smash was reported. At 7:35 P.M. the first riot condition call was broadcast over the police radio, the location was given as 4917 - 3rd Street.

As conditions were developing, Chief Cahill was in conference with Mayor Shelley regarding the situation and control measures which would be required. As a result of this conference, a temporary Command Operations Center was established in Chief Cahill's office at 7:50 P.M. Mayor Shelley and Chief Cahill then responded directly to Potrero Station to personally assess the conditions. From Potrero Station, Mayor Shelley and his entourage drove to the Bayview Community Center where a large, unruly mob was massed. Unsuccessful attempts were made by the Mayor, the Chief, and Supervisor Terry Francois to address the mob outside the Center. The mob was so unruly that, in addition to the verbal abuse being offered, a brick was hurled, narrowly missing the Mayor. At this same time, a solo motorcycle officer was struck in the face by another thrown brick. Being unsuccessful in their attempts to speak to the mob outside the Center, the entire party moved to the inside of the Bayview Community Center. Conditions inside the Center were no better than those which prevailed outside on the street. Bedlam and confusion reigned and the attempts at quieting and addressing those in the Center were no more successful than the previous attempts. At one point while the Mayor was speaking, a person from the mob jumped up in front of him and began agitating the crowd for "white hatred". Notwithstanding the noise, the Mayor was successful in announcing that Officer Johnson had been suspended from duty pending a complete investigation. The scene was now chaotic and it was obvious that no further communication could be made so the Mayor, Chief and their staffs left and returned to the Potrero Station Field Operations Center at 9:30 P.M.

The units that had been ordered to assemble at the Potrero Station were being equipped with protective headwear and batons. These units were addressed by the Supervising Captain, Chief Cahill and Mayor Shelley relative to the seriousness of the situation and the necessity of avoiding any unnecessary incidents and the use of force. On completion of the receipt of these instructions the men

were placed into squads and were readied for assignments, and to be moved to designated staging places in the 3rd Street area. The available personnel were divided under the commands of Captains Cummins, Barca and Nelson, and transported to the staging areas at Quint and LaSalle, Quint and Palou, and Quint and Oakdale with instructions to sweep Easterly towards 3rd Street to disperse the crowds and to clear the areas where the trouble was occurring. In the meantime, Traffic Bureau personnel were assigned to block 3rd Street and divert auto traffic from Williams Avenue to Evans Avenue to prevent cars from entering the area.

The assembled squads began the sweep on all "east-west" streets from LaSalle to Palou. Although several arrests were made, the sweep, or clearing, of this area was accomplished without major incident. When the sweep of these streets was completed, the squads were regrouped at 3rd and Oakdale under the commands of Captains Nelson and Barca with orders to sweep further in an Easterly direction to move and disperse those people on the streets, and to place men on the corners of the intersections to maintain security and control.

Following the sweep, Captains Cummins, Nelson and Barca were met by Supervising Captain Lee. Captain Cummins was placed in command and the Potrero District was divided into 2 parts; Captain Barca was assigned in command of the Northern half and Captain Nelson was assigned the Southern half, with orders to keep the area clear.

Following the return of the Mayor and Chief to Potrero Station, it was determined that additional police personnel would be required. Chief Cahill ordered all day watch personnel to be recalled and the midnight to 8:00 A.M. watch summoned early. Determinations were also made at this time to alert the California Highway Patrol, California Disaster Office and the National Guard that assistance might be required. Simultaneously, information was received from the Director of the San Francisco Disaster Corps that he was setting up headquarters in the Mission Emergency Hospital.

Shortly thereafter a temporary Emergency Operation Center was established in the San Francisco Police Department by the Adjutant General and the National Guard staff.

By 10:25 P.M. the Office of the Governor was notified of the situation. By 11:00 P.M. liaison offices had been established between the San Francisco Police Department and the National Guard, California Disaster Office and the California Highway Patrol. At approximately this same time, reports were being received of incidents occurring in the Northern Police District. At the request of Chief Cahill, 50 California Highway Patrol units were sent to the Northern District and the remaining 50 sent to the Potrero District.

Because incidents were occurring in other than the Potrero District, the Chief and Mayor returned to the Hall of Justice Command Operation Center.

Between 11:00 and 11:30 P.M. reports were received from the Northern Police District regarding window smashes, large scale looting and rioting in the Central Fillmore area. By midnight, plans for the isolation of the Central Fillmore District were made utilizing the Highway Patrol Units combined with personnel from other District Stations. The Northern Field Command Post was established on the area perimeter and a sweep of the Central Fillmore District was commenced. Fixed posts were established for the area control of both the Northern and Potrero Districts and mobile controls were reinforced. By 3:00 A.M. the situations in these districts were under control to the point where a gradual withdrawal and release of personnel was commenced and all California Highway Patrol units were released.

Following the Mayor and Chief's return to the Command Center at 11:22 P.M., conferences were held with all available command staff and liaison officers of supporting agencies.

At 11:35 P.M. Chief Cahill, through Mayor Shelley, requested that 2,000 National Guardsmen be made available as soon as possible.

By 11:39 P.M. Mayor Shelley had contacted Governor Brown via land line officially requesting support activities of the California National Guard and the State of Emergency Declaration. At 11:44 P.M., 2,000 National Guardsmen were ordered to duty in support of the San Francisco Police Department.

Under the State of Emergency Proclamation, a curfew was established in pre-designated areas, effective from midnight Tuesday, September 27 until 6:00 A.M. Wednesday, September 28, 1966. Based on the provisions of the Governor's proclamation, Chief Cahill issued a State of Emergency Sigalert at 1:00 A.M. Wednesday, September 28, 1966.

General Hill, Adjutant General of the California National Guard, and staff arrived at the San Francisco Police Department at 1:15 A.M. Wednesday, September 28.

By 2:25 A.M. confirmation was received authorizing the use of Candlestick Park and Kezar Stadium as staging areas for National Guard troops.

By 3:30 A.M. conditions were under control and the staff at Operations Headquarters was reduced to minimum requirements.

During the early morning hours, shortly before day-break, services of the Department of Public Works were obtained to clean the streets of debris and objects which could be hurled.

Command was returned to the Potrero District at 6:20 when Captain Cummins, Assistant Supervising Captain, placed Sergeant E. Marelli, Acting Platoon Commander, in charge of field operations in the Potrero District. A survey of the Potrero District indicated that conditions were sufficiently under control and all outside district cars were released at 7:18 A.M.

By 9:30 A.M. on Wednesday morning, conditions were again developing as information was received from patrol units that a crowd was gathering in the vicinity of 3rd and Mendell and Mendell and Newcomb Streets. Sergeant Marelli and all available Potrero units responded to the location. After conferring with community leaders, it

was agreed that such leaders would be given an opportunity to disperse those persons who had congregated at that location. The situation relaxed for approximately 1 hour, at which time the crowd again started to mass, using the off-street facilities of the Bayview Community Center at 3rd and Mendell and the old Opera House in the rear of that building from which location Molotov cocktails and rocks were thrown. The crowd at this time numbered approximately 200. The record breaking temperature on this day at 11:00 A.M. was already 86 degrees and rising. Tempers were being fueled by alcoholic beverages, looted previously, which poured freely. The community leaders were unable to control or disperse the crowd which became unruly, throwing any available objects and injuring innocent bystanders. Objects thrown by the crowd damaged vehicular traffic through the area. It was soon realized that the number of available personnel was insufficient to properly control the area and situation. Requests were made for additional personnel and mobile equipment in the Potrero District in order to disperse the crowd which now numbered approximately 700 persons.

Simultaneously, while the situation was developing in the Potrero District, numerous reports of juvenile groups and minor damages were occurring throughout the city. At approximately 12 Noon, during the lunch period break at Mission High School, 18th and Dolores Street, large groups of juveniles were gathering and, as a result, minor fights between the students developed. This situation rapidly accelerated and at 12:20 P.M. riot conditions were reported on all floors at Mission High School. Units from the Mission Station and the Traffic Bureau rushed to the scene to aid units of the Juvenile Bureau which were in the school. Traffic blockades were established on 18th Street to divert traffic from the area, and members of the Mission Station entered the school to assist the Juvenile Bureau Units. By 12:44 P.M. the Situation Report from Mission High School indicated that control had again been established. In order to forestall any further difficulties with the students, school administrators decided to close

the school for the remainder of the afternoon, and at 1:00 P.M. the Mission High student body was released. These students, while making their way towards their homes in large groups, created many problems and caused certain damages along 18th Street and Mission Street. Again, members of the Traffic Bureau and the Mission Station were needed to keep the crowd moving and in small groups. At 1:18 P.M. a riot call was received from 23rd and Bartlett Street at Horace Mann Junior High. The same method of control was employed and 22nd Street was blockaded by the Traffic Bureau as the Mission Station personnel moved in to disperse the congregating students. By 1:32 P.M. this situation had been quelled.

Also during these times, juveniles in the Northern and Park Districts of the city were congregating in groups and were attempting to smash windows, throw rocks and objects, block traffic and generally disrupt all normal activity. Units from the Northern and Park Districts were able to keep the damages to a minimum and control the looting in these areas.

During Wednesday Chief Cahill and the Tactical, Operational and Command staffs were in conference. By 8:30 the entire San Francisco Police Department was put on standby alert, supported by 100 California Highway Patrol Units and the National Guard on standby status. All days off were cancelled and the 12-8 A.M. watch members ordered to report for duty at 8:00 P.M. At 12:01 P.M. a Police Information Evaluation Center was established. At 12:07 P.M. the emergency curfew provisions established for the Fillmore-Potrero areas were again effected. Plans were formulated to activate a tactical mobile unit composed of California Highway Patrol and San Francisco Police Units. This tactical mobile force was termed "Double Team", composed of 15 San Francisco police cars and 15 California Highway patrol cars with 2 members of each agency in each car, making a total of 2 cars and 8 men per unit, or a total of 30 cars and 120 men. This unit was activated to patrol in the Potrero District and proved to be an effective weapon providing

mobility and quickness of striking force in sufficient numbers to quell, disperse and control disturbances.

Support activities of Allied Agencies was discussed and the requirement for guards to offer protection to fire apparatus operating in the vicinity. Unprotected and at the mercy of mob incitation, Fire Department vehicles and members were subjected on many occasions to damage, harrassment, and injuries while performing their functions. By 4:00 P.M. arrangements had been made with the National Guard to provide men to protect the fire apparatus.

Use was made of combined unit activities of the police and Highway Patrol in both the Northern and Central Districts. In these areas, however 1 Highway Patrol car and 2 Highway Patrol Officers were utilized by placing 2 San Francisco Police Officers in the vehicle. In order to maintain continuity of communication, a Highway Patrol vehicle and a San Francisco police vehicle were parked side by side at the command post and messages were relayed to the units on patrol. This provided both area patrol and perimeter containment.

Captain Nelson left the conference at the Hall of Justice and returned to the Potrero District to assess the situation. Numerous reports of juveniles congregating and fighting at various locations were received, in addition to reports of looting and additional harrassment of vehicular traffic. By 3:49 a command post and staging area had been established by the command units of the Potrero Station at 3rd and Kirkwood. The previously established double team units were activated at 4:00 P.M. Attacks on the vehicular traffic were to the degree that required reestablishment of the traffic blockade in the 3rd Street area. This was accomplished by 4:12 P.M. with the Traffic Bureau command post being established at 3rd and Palou. Reports from the Field Operations Commanders indicates the following: Reports were received that additional looting was occurring in the 3rd Street area, Molotov Cocktails and rocks were being thrown, the sound of gunfire could be heard. It previously had been decided that at least 100

personnel would be required before any attempt to disperse the crowd could be undertaken. However, because of the shooting and other activities there, it was decided by the field command personnel to move immediately into the area. Announcement was made by loudspeaker that the crowd constituted an unlawful assembly and orders to disperse were issued. Community leaders there requested time in which to attempt a dispersal of those congregating. The community leaders were given 1 hour and 15 minutes in which to carry out the dispersal. During this period, windshields of at least 5 trucks and 20 autos were shattered by rocks. Dispersal by the community leaders was unsuccessful.

At 5:38 P.M. a burglary was reported at the Spotlight Liquor Store at 3rd and Newcomb and the looters were reportedly attempting to move the safe. Simultaneously, the Director of Traffic in the traffic command car made a request for all patrol units to respond to the Bayview Community Center. At 5:43 P.M. a report was received that one of the patrol car unit officers had been injured by thrown debris. Within moments 2 requests for assistance from officers on 3rd Street and Mendell were received. As a result of this and the chaotic conditions, it was decided that the personnel at the command post would have to be moved out. At 5:44 P.M. the patrol force moved out as squads from the command post at 3rd and Kirkwood, to respond in attempting an area crowd dispersal maneuver. The squads were stretched across 3rd Street from building line to building line and moved slowly to the intersection of 3rd and Newcomb. Simultaneously to their arrival at this location, firebombs were thrown at them from the windows of the Bayview Community Center. In addition, gunfire was directed at them from the Community Center and also from under a parked car which was across the sidewalk in a driveway on the north side of Newcomb near Mendell. In order to protect themselves and regain control of the situation, the squads were ordered to fire. The first 2 volleys were fired into the air in a warning gesture. This proved fruitless as the officers were still targets of additional gunfire and Molotov Cocktails. The next volleys

were directed at the points from which the firing emanated. The Bayview Community Center was quickly emptied and the situation was brought back under the control of the Police. A search of the immediate vicinity around the auto disclosed a jacket behind the right front wheel. In this jacket were found 60 secondal capsules and an expended 22 cal. cartridge. Injuries as the result of the gunfire exchanged totaled seven (7), none of which were above the waistline of those persons injured and none of which were of a critical nature. Those persons were transported for medical treatment as required. Control of the area was maintained with the placement of several personnel at strategic points and roof-tops of buildings in the area.

When requests were received at Command Headquarters for additional assistance, evaluations were made of available personnel. It was decided to utilize the National Guard in support activities. The National Guard Battalion 2/159 which was staged at Candlestick Park was alerted for immediate support action. An escort was provided for the Guard to the 3rd Street area where they disembarked and, with fixed bayonets, marched north along 3rd Street clearing the area. This sweep included 3rd Street and streets two blocks to the East and West of 3rd Street. Streets were cleared, blockades were set up and a perimeter was established. The entire area was reported secured at 7:15 P.M. Perimeter mobile control was maintained by the San Francisco Police Department and fixed post control points were manned by combined units of the National Guard, Highway Patrol and Police Department. During the remainder of the evening the curfew which was established in the area was enforced, traffic was blockaded and only sporadic minor incidents of window smashes, lootings and fights occurred which were handled by the double team units. Captain Nelson remained on patrol in the district with Major Pickering of the National Guard.

During the early evening hours of Wednesday, additional California Highway Patrol Units and National Guard Troops were arriving

for support activity, including the 1/159, 2/184, 1/143 and 2/143. Those units which were not diverted for immediate deployment were staged at Candlestick Park and Kezar Stadium.

Because of information received regarding possible attempts at mass damage along the concentrated business establishments in the Market Street area, 25 Highway Patrol Units were teamed with 25 San Francisco Police Officers to patrol the Market Street area. No incidents were reported or incurred by this patrol which was maintained until approximately 3:00 A.M. on Thursday, September 29, 1966.

Activity buildup in the Northern District required the dispatch and deployment of National Guard and California Highway Patrol Units. Between 7:00 P.M. and 7:30 P.M. California Highway Patrol Units and National Guard Units were dispatched to the Fillmore area. The Radio Log of the Bureau of Communications indicates a riot call broadcast at 7:19 P.M. Rioting and looting was occurring in the 900 and 1000 blocks of Fillmore with some groups moving out of the main body of the rioters. By 7:30 P.M., sporadic gatherings about the central Fillmore area were occurring. Incidents of window smashes were reported from the nearby residential area. By 8:00 P.M. the Northern District Command Post had been established at Geary and Webster. Shortly thereafter the California Highway Patrol units arrived at the Northern District Command Post, in forces numbering approximately 150 men. With this personnel available, a sweep of the central Fillmore area was made which met only light resistance. By 9:00 P.M. the central Fillmore area was reported secure.

By 10:30 P.M. the National Guard trucks and troops had arrived at the Command Post at Geary and Webster numbering approximately 300 men. These troops were utilized and patrols were begun in the Fillmore area. Perimeters were established and maintained during this period. Between 12 and 3:00 A.M. minor outbreaks of window smashing and burglaries were occurring within the perimeter, with reports that some burglaries still were occurring in areas outside the perimeter. The situation was, however, sufficiently under control that

at 3:30 A.M. the Northern District Field Command Post was secured and the Command Post was returned to the Northern Station.

As situations in the various districts of the city were brought under control, gradual withdrawal of the National Guard and Highway Patrol was commenced and by 4:00 A.M. all Highway Patrol units had been withdrawn from the city and only 100 National Guardsmen were being utilized for support.

At Command Headquarters in the Hall of Justice, information regarding the requirement for personnel deployment was being evaluated. At 9:10 P.M. Governor Brown arrived in the Police Department Emergency Operations Center for an assessment of the situation and control methods being employed. At 9:25 P.M. Governor Brown entered the Police Commission Hearing Room for a press conference. Following this, Attorney General Lynch and U. S. Attorney Cecil Poole arrived at the Hall of Justice for a conference with Chief Cahill. Information being received at the Police Operations Center indicated that control had been regained and minor incidents were being adequately and well handled. The release of day watch personnel was ordered simultaneously with the withdrawal of California Highway Patrol and National Guard Units.

At 6:00 A.M. Thursday, September 29, 1966 the curfew was lifted. During the day time, activity was generally juvenile oriented. School areas throughout the city were particularly troublesome; many fights involving juveniles broke out at the schools and along normal routes taken by the students in traveling to and from school. Reports of serious incidents, allegedly possession of guns by juveniles were received and checked for verification. In all but one or two cases these reports proved false, but the requirement to check on their accuracy kept the patrol personnel constantly utilized. In order to keep the school situation under control, patrols were established for each police district whereby radio cars and solo motorcycles constantly made passing calls on the schools within their jurisdiction.

Members of the Juvenile Bureau were assigned to the various schools throughout the city to closely observe and supervise the activities in their areas. At 2:18 P.M., due to the many reports of fights and vandalism at the schools and surrounding areas, 11 men were assigned as a "standby striking force" to handle school problems exclusively. As a further preventive measure, members of the Board of Education suspended all inter-school athletic events and activities. The students of Washington High School, which had been a scene of trouble earlier in the day, were dismissed early. At 2:50 P.M. sporadic outbreaks of trouble involving juveniles again became numerous. From approximately 3:30 P.M., as large groups of students moved throughout the city, the Haight-Ashbury, Fillmore area was the scene of a majority of these fights, vandalism and in one case an assault on a bus driver. Support by the National Guard was requested at 3:45 P.M., at which time 30 men were committed to Waller and Stanyan Streets. Patrol Units of the various police districts were able to control these groups of juveniles and keep damage to a minimum. The patrol units were finally successful in dispersing the juveniles. By 7:00 P.M. the juvenile problem was mainly eliminated and activity was confined to widely separated events perpetrated by small groups.

During Thursday, staff command operations at the Hall of Justice were concerned with the disturbances, logistics, and deployment of personnel of all the participating agencies and administrative problems which had occurred. At 11:15 A.M. it was decided to request the National Guard to establish a liaison officer in each station where the troops were acting in support of the San Francisco Police Department. At 1:00 P.M. Chief Cahill was advised that the National Guard had 2 helicopters enroute to the roof of the Hall of Justice and that 1 additional helicopter was to be stationed at Crissey Field in the Presidio, to act in support. By 2:25 P.M. the first helicopter had arrived at the heliport on the roof of the Hall of Justice and was immediately utilized for over-all inspection of the trouble areas in the city.

On Thursday morning a meeting was held at the Council of Civic Unity on Market Street, attended by Mr. Orville Luster, a representative group from the Hunters Point Community, Area Board Office of the Anti-Poverty Program and Bayview Community Center, relative to a proposal to be made to Mayor Shelley in an attempt at further means by community members to help restore order. It had been noted that the effectiveness of the Youth for Service street monitors was not as effective as had been anticipated. At approximately noon on Thursday, a proposal was made to Mayor Shelley to organize a Youth Peace Patrol wearing distinct armbands to be issued by the Police Department. This operation was to be under the direction and guidance of the Police Department. The purpose of the Youth Peace Patrol was to establish and maintain contact with community members by community members in an attempt to assist in restoring order by self-policing methods. The distinct armband would identify those persons and allow freedom of movement into and within curfew areas.

Mayor Shelley approved the idea for a Youth Peace Patrol and advised that group to meet with Chief Cahill regarding its establishment. At 3:00 P.M. the group leaders met with Chief Cahill, Deputy Chief Nelder, Supervising Captain Lee and Inspector Simmons of the Police Community Relations Bureau, in the Chief's office to establish "ground rules" for the operation of a Youth Peace Patrol. At approximately 5:30 P.M. at the Hilltop Church, 181 Hilltop Road, the persons who were active in the Youth Peace Patrol met with members of the Police Community Relations Bureau who distributed armbands furnished by the Police Department. The Youth Peace Patrol established headquarters at 1449 Mendell (the Area Board Office) and began functioning about 6:30 P.M. They operated until approximately 11:00 P.M. utilizing about 75 young male adults.

At 5:30 P.M. the double teams were reactivated for service in the Potrero District. Shortly thereafter, information was dissiminated to all participating agencies that the Youth Peace Patrol would be

active on the streets and would be recognized by distinct armbands. By 7:36 P.M. on Thursday, control was established sufficiently that release of all day watch personnel was ordered and by 8:20 P.M. California Highway Patrol Units, being held in reserve, were released. No major incidents had occurred from 8:00 P.M. when the curfew again was in effect. The only incidents of significance were the arrest of 85 demonstrators in the Haight-Ashbury area and juvenile disturbances in the housing project area at Sunnydale and Hahn. Both of these incidents were quickly dealt with and the situation returned to normal. At 9:17 P.M. Mayor Shelley made a request of all citizens in non-curfew areas to remain in their homes and off the streets, and further requested that all business establishments be closed at 10:00 P.M.

During the entire period of the civilian disturbance, the Fire Department personnel and equipment were subjected to harassment, injuries to personnel and damage to vehicles. The Fire Department code signal for immediate police protection was sounded no less than 24 times. The assignment of National Guard personnel to fire apparatus was effectively used in reducing such incidents. In cooperation with the Fire Department, "courier cars" were assigned to respond to all alarms prior to the dispatch of fire equipment to further assist in their protection. A recap of the Fire Department response record for the period 12 midnight Tuesday to 12 midnight Saturday, indicates a total of 625 box alarms, still alarms and boxes held; of these, there were 3 greater alarms: 1 third and 2 seconds which could be classed as riot connected.

Activities during late evening hours of Thursday were being handled by area patrol units. The reported incidents were found to be of minor nature or no merit. It was necessary, however, to investigate each of the reported incidents. Methods and procedures employed proved to be effective as all areas were brought under complete control by the police and supporting agencies. Activities had decreased and the

situation was such that at 11:00 P.M. all California Highway Patrol units were ordered to reassemble at Candlestick Park, and by 12:05 A.M. on Friday the remaining California Highway Patrol units were withdrawn, leaving only those at the joint command post. At 1:00 A.M. the double team operation was deactivated and at 2:20 A.M. all members of the Bureau of Inspectors at district stations were released.

At 6:00 A.M. on Friday morning the curfew was lifted, following the withdrawal from the city of 733 National Guard troops. Activities during Friday centered around sporadic juvenile activities in various parts of the city. By 11:15 A.M. the situation was such that all units were ordered to resume normal patrol of their respective districts. Particular attention was given around the vicinity of high schools. At 11:50 an outbreak occurred at Balboa High School which was quickly quelled and the situation controlled by responding units. At 2:30 P.M. Chief Cahill released from use the buses furnished by the Department of Corrections which were utilized continuously during prior activities for the transportation of police personnel and, in some instances, prisoners. Following the release of the Corrections buses, Lieutenant General Hill of the National Guard made a reconnaissance tour of the city to assess what further requirements would be placed upon the National Guard units. Although control was maintained, the midnight to 8:00 A.M. watch personnel were ordered to report at 8:00 P.M. as a precautionary measure. The curfew for Friday evening was established to be effective at 11:00 P.M. rather than at the 8:00 P.M. time. Incidents occurring during late evening hours of Friday and early morning hours of Saturday were typical of juvenile sporadic action with no major occurrences.

At 6:00 A.M. on Saturday, October 1, 1966 the curfew was lifted. At 2:00 P.M. on Saturday, 175 additional National Guard troops were withdrawn from the city. Saturday activity was stabilized. Only one incident occurred at 10:38 P.M. when gunshots were heard from the rear of Kezar Stadium. At 11:00 P.M. the curfew was again affected. Late

Saturday activity and early Sunday morning activity was typical of the day before, with some reports of broken windows and looting.

By 5:00 A.M. Sunday, October 2, 1966 the remaining 280 National Guard troops were withdrawn from the city and the curfew lifted one hour later. Following a consultation with the Chief and his command staff, the Mayor issued a notification to lift the curfew and cease the state of emergency, effective 11:00 P.M. Sunday, October 2, 1966. The decision was made that all watches would return to their normal hours.

At 11:00 P.M. Sunday, October 2, 1966 the state of emergency ceased.

MAJOR INCIDENT LOG

TUESDAY, SEPTEMBER 27, 1966

- 3:10 PM - Report of shooting - Navy Road and Griffith.  
Ambulance requested. Stolen auto BFE 492.  
Matthew Johnson, Negro Male Juvenile, 16 years, shot  
fatally by San Francisco Police Officer Alvin Johnson.
- 3:19 PM - Chief's Office notified of shooting.
- 3:25 PM - Mayor notified of shooting by Chief.
- 3:28 PM - Captain and Lieutenant responding to scene.
- 3:28 PM - Coroner dispatched.
- 3:46 PM - Juveniles grouping at Oakdale and Mendell.  
(approximately 150).

MANHOURS DEVOTED TO CIVIL DISTURBANCE

50,192 Total Manhours Devoted To Civil Disturbance  
(Not including that of the National Guard)

The following represents the number of hours devoted to the civil disturbance in San Francisco. The hours are divided into two (2) groups:

Normal Tour - Those hours falling within the normal eight hour watch that were devoted to the civil disturbance.

Overtime - Those hours in excess of normal eight hour watch or hours worked on normal watch-off period.
